

Respected Sir/Madam,

I have 7 years experience in "Embedded System Industry" out of which I have nearly 4+ years of "Trolltech Technologies" experience.

In the course of my career I have achieved following things:-

1. Port of "Qt/Embedded 3.1.2" over "VxWorks 5.5.1"(<http://www.qtsoftware.com/qt-in-use/story/partner/spartan>)
2. Port of "Qttopia 4.2.2" over "SH3 Linux Platform"
3. Conducted nearly 10 Qt trainings across the globe
4. Designed and developed complex Qt applications
5. I have won a price in "Qt Centre Programming Contest 2008"(<http://www.qtcentre.org/component/qtcentrefrontpage/?task=view&id=111>) for my "Inter Process Signal Propagator"(<http://code.google.com/p/interprocesssignalpropagator/>) project

I think I am the most suitable candidate for this post as I have considerable "International Client Interaction" exposure and Qt expertise.

My latest profile can be viewed at "<http://sites.google.com/site/bhooshansupe/>"

Thanks and Regards,
Bhooshan Supe
